DETAILED ACTION

Receipt is acknowledged of the preliminary amendment filed 04/26/2005.

Information disclosure statements were filed 10/24/2003 and 08/18/2004.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 22 is indefinite in that it sets out the "formation of a granulate are performed in a single integrated machinery that is adapted for such a combined process". This does not particularly point out the machinery used in the process. Applicant is requested to instead use the listing of the specific machinery listed at page 11, lines 28-37. Correction is requested.

Allowable Subject Matter

1-21, 23-37, 40-60 are allowed.

Application No. 10/425,993 (US'993) which is also PG PUB No. 20040220080 is noted as a solid dosage form of desmopressin with a pharmaceutically acceptable excipient, diluent or carrier or mixture thereof, wherein the carrier is a disaccharide which has an average particle size in the range of from 70 to 500 um. There is no limitation as to the amount of the lubricant in the granule.

WO 00/59423 is cited for its particle of desmopressin in example 6. It is noted that the lubricant level was higher than the amount found in the claims.
